Description

This cemetery is made of graves in schist from the 17th and 18th centuries, and it is a rare example of marine kind because it is naturally limited by the water of the Semois river. This cemetery is made of graves in schist from the 17th and 18th centuries, and it is a rare example of marine kind because it is naturally limited by the water of the Semois river. Marcel Leroy, a poet of the aera liked it very much, and so did Marie Howet, and some other artists also. It is listed
