Description

The discovery route in the Rossignol chateau estate cuts through a 9-hectare wood and takes you to see some remarkable trees and learn about the different species present. This natural setting is worth visiting so you can discover all its wonders. This walk can be found in the Izi Travel app on your smartphone. Two videos will be available on your phone at point no. 2 (copper beech) and point no. 21 (tulip tree). A total of 20 different species of trees, all with a story to tell...
