Description

Gifted with an extraordinary panorama, Florenville will surprise you with its countless faces: welcome, heritage, gastronomy... You will get a change from your usual routine, that's for sure! Behind the church, an exceptional panorama on the Valley of the Semois, the nearby villages and the Ardennes forest does Florenville very proud. Settled at the top of the church's tower, the belvedere is a truly unique lookout. From the top of its 50 meters, you will be able to soak the view of an 800km² wide panorama. The belvedere is open every day in July and August. You will also discover Paysalia, Landscape Discovery Center, that will open the gates of its landscapes and give you the keys you need to understand it. Fancy a walk in Florenville? The Servais Route offers a pleasant loop walk of 3km. This walk has bilingual pedagogical signs that will make you discover, through the artist Jean-Claude Servais's drawings, the endemic birds of our region.
