Accessibility : Pushchair

# Trek

**Departure** : 6880 - Auby-sur-Semois

**Arrival** : 6880 - Auby-sur-Semois

**Markings** : ■ N1 - Red

**Cities** : 1. Bertrix

## Altimetric profile

Min elevation 240 m Max elevation 386 m

This walk will take you along the meander of the Semois that is closest to the village of Auby. You start with a pleasant descent along the road leading to the Maka, then branch off onto the forest track that runs alongside the meander. As you pass a few trees, you'll catch a glimpse of the Semois below. The end of the route is a little more strenuous, with an ascent from 252 m to 387 m. You will then return to the village of Auby via another, more pastoral route, and will have to make your way back down to the church. In wet weather, bring boots or ankle boots, as some paths may be locally waterlogged.

Pushchair

# Environmental sensitive areas

Along your trek, you will go through sensitive areas related to the presence of a specific species or environment. In these areas, an appropriate behaviour allows to contribute to their preservation. For detailed information, specific forms are accessible for each area.
