This walk starts at the same point as the yellow BX16, passing the cemetery before beginning the descent. At the crossroads a little further down, you separate from this other walk. You may even come across some walkers going the wrong way: those finishing the BX16. You will then walk along a property with numerous ponds and then back into the forest. You'll discover some superb scenery on gravel roads. A little further on, you'll find a real hunting shelter with metal structures for hanging up game after hunts. Finally, you return to the village, passing the old water tower and a large farm.
